

PHEASANT PHEAST™

Pheasant Pheast™ is desired by upland game birds because it provides them with daily energy and a protective structure for survival. Its seed will become sweeter in taste as the plant matures.

Ingredients: Red Grain Smart Sorghum™ (Milo)

Height: Ranges 3.5' to 5'

Maturity: 80-95 days

Plant Date: Late Spring

Seed Rate: 8lbs/acre drilled | 12lbs/acre broadcasted

Seed Depth: 1/2" to 1" deep

Herbicide Type:

Preplant: Glyphosate, Dual®, Atrazine®, etc.

Postplant: Most common broadleaf herbicides

Package: 50lb bags
